---

Hello Linda, Treasure and all. Thank you all again for your time and input on our call last week to discuss Comanche Station. Attached are notes we prepared summarizing our understanding of the call. Please let us know if you think there are any errors or omissions and we can revise. If none, we can consider these final. We have spoke with our consultant HDR and they are preparing a scope of work document with more detail than what we shared on our call; for your review in advance of our planned follow up technical discussion with the smaller group. We should have something to send by early next week and will look at our calendars and reach out to you for available times to schedule that call. We look forward to discussing the drilling scope and moving forward with that program.

Please forward as appropriate; I do not have Steve or Pete's email.

Sincerely,

**Jennifer McCarter, R.E.M.**
